Humble memorial of R.W.Nayak,
II Class Vaccinator and
qualified Sanitary Inspector
Beltangady Range, S.Kanara Dt.

The memorialist begs to submit the following
grievances for sympathetic consideration and favour of
orders:--

2. The Government in paragraph 1 of G.O.No. 2884, P.H., dated 17.12.1934 were pleased to fix a proportion of the I class to II class vaccinators as 2:3 for every district. They have also in paragraph 1 of G.O.No.2681, P.H., dated 14.10.1935 fixed the strength of the Vaccination staff for South Kanara District as 3 first class and 16 second class vaccinators, (the then existing staff).

3. As the then existing proportion of first to second class vaccinators in this district is only 3:16 the Government have in paragraph 2 of G.O.No.2681,P.H., dated 14.10.1935 advised the South Kanara District Board to convert some of the posts of II Class Vaccinators into those of I Class in order to reach the prescribed ratio of ~~3~~ 2:3 as laid down in paragraph 1 of G.O.No. 2884,P.H.,dated 17.12.1934.

4. Memorialist is the permanent II Class Vaccinator drawing Rs 37/- per mensem. He has qualified himself as a Sanitary Inspector in the year 1936 and possesses certificate.

5. On his approaching the District Board for the conversion of the II Class post permanently held by him into that of a I Class, the District Board, in their proceedings D.Dis.No.12946/A4/36, dated 21.12.1936 have ordered that the question ~~of~~ would be considered when vacancies actually occur. The 3 existing posts of I Class Vaccinators are held by three first class vaccinators two of whom are approved probationers for the Health Inspector's posts and one is a Reserve I Class Vaccinator.

6. In view of the proceedings D.Dis.No.12946/A4/36 of the President, District Board, South Kanara, mentioned in paragraph 5 supra, it is seen that there is little chance in the near future for the occurrence of ~~of~~ vacancies of I Class Vaccinators' posts; besides in filling up vacancies in this cadre, it may not be possible to attain the prescribed proportion of 2:3 referred to in paragraph 2 above, if the present strength of this district i.e., 3 first class and 16 second class remains the same.

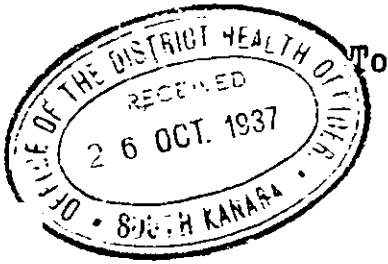

7. The memorialist therefore prays that the present permanent second class vaccinator's post held by him since about 17 years, may therefore be converted into First Class Vaccinator's post with effect from 1.1.1937.
